Complete Dispersion
Saturday, October 1, 2011 • 12:00 Noon

at the farm, Virgil, South Dakota

Welcome...

Dear Fellow Cattlemen and Friends:

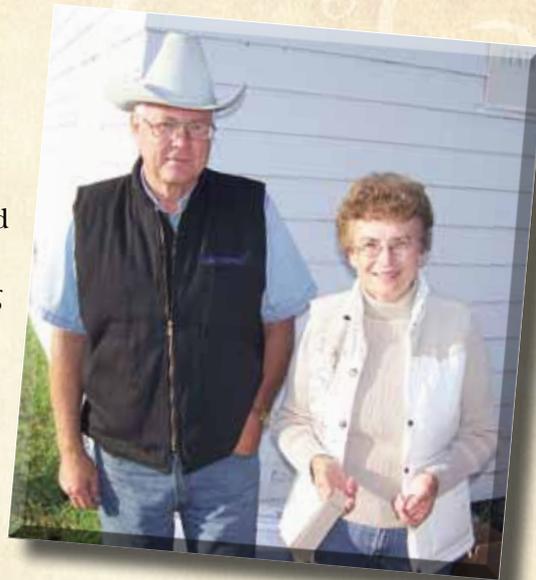

We would like to extend our personal invitation to each of you to be with us on October 1, 2011 for the complete dispersion of our cow herd including several calves and herd bulls.

We have had the luxury and privilege for 37 years of being able to live our dream in working with this breed of cattle. It was a very difficult decision to sell this herd. However as age catches up to us it just seems to be the time while we are still in good health.

Over the years we have enjoyed meeting so many great people and have made lifelong friends with such a number of them.

We have had the honor over the years of sharing our annual sales with Frank and Hazel Curtis and Don and Joyce Dubois. We owe them a debt of gratitude and also especially to our many, many bull customers. Some of our customers are the third generation in their families to buy bulls from us. We will have our 60th annual and last bull sale on February 18, 2012.

In offering this group of cattle to you, our hope and trust is that they will do as well for you as they have done for us.

Sincerely,
Larry and Carol Gildemaster
Curtis Polled Herefords

Sale Managers Comments...

DISPERSAL!!! The word that means "They all sell." The word that means you (the buyer) have a once in a lifetime opportunity to buy the very best from one of America's oldest and most successful Polled Hereford operations. Curtis Polled Herefords, founded some 95 years ago, has proven their worth to the cattle industry by having 59 annual bull sales. Selling bulls to commercial producers for over 90 years tells me they have been doing things right. Frank and Hazel Curtis headed this operation for many years and as their daughters Joyce and Carol grew and married, they and their

husbands formed their own herds and have carried on the family tradition of quality seed stock production. Larry and Carol Gildemaster are now at the age of slowing down, and having no next generation to carry on, are selling all of the registered Polled Hereford herd that carries so many generations of superior genetics.

Only in a true dispersal such as this do fellow breeders and new breeders have the opportunity to step up and add these time proven females and Herd Bulls.

All the bred heifers, cows, 2011 heifer calves, herd bulls and about 50% of the 2011 bull calf crop sell. The balance of the 2011 bull calves will sell in the February 18th, 2012 annual and final Bull Sale.

The disposition of the herd is great! As we pictured and videoed these cattle we worked with each animal and saw how the cattle reacted to handling. These did great.

The uniformity and quality are very evident as we worked them. The generations of selection for performance and disposition shows.

DISPERSAL!!! Not a word we really like to hear as it means the culmination of a herd and the family behind the cattle but again, a great opportunity for buyers!

Carol and Larry Gildemaster — the Hereford breed says "Thank You" for a lifetime of dedication.
