CURTIS POLLED HEREFORDS

Dear Fellow Cattlemen & Friends:

We would like to extend an invitation to each of you to be with us on Feb. 18, 2012 for our 60th Annual Sale at Bales CCC, Huron, SD.

This past year has been challenging but very rewarding for us. Our cow herd dispersion sale on October 1 was a day we will never forget. We were overwhelmed by the large crowd that filled the tent that was set up at the original Curtis homestead site, and are so thankful for the people that attended.

Time marches on as this is our Final Bull Sale. We will not be calving out any cows in 2012 and have rented our land to others. Even though this is our final sale, we want you to know that the bulls selling will carry our "Unconditional Guarantee" through the first breeding season as we have done in past years. We value the confidence our buyers have placed in our bulls. Because this is our LAST SALE, we are offering a very select group of Yearling Bulls in addition to our traditional top cut of two-year-old bulls.

As we reflect on past sales, we must thank the Bales family for hosting 51 of our annual sales. It has been a privilege to get to know and work with three generations of the Bales family in merchandising our cattle.

We are also thankful for the American Hereford Association and the South Dakota Hereford Association for getting the word out about the benefits of Hereford cattle in the beef industry.

In addition, the *Hereford World*, *Hereford America*, and *Cattle Business Weekly* publications for their assistance in getting our advertising to potential customers. There are great people representing all three publications.

A special thanks to the Hereford Connection crew that were so helpful in organizing our cow dispersion sale.

Last, but certainly not least, a heartfelt thanks to the commercial cattlemen and women whom we have listened to and learned from in developing a breeding program to provide bulls that keep them in business.

We look forward to a new chapter in our lives, but will always treasure our memories of those years raising and selling Hereford cattle.

LARRY & CAROL GILDEMASTER

DEFINING EPD (EXPECTED PROGENY DIFFERENCES) TERMS

EPD's are a prediction of how an animal will perform compared to other animals in the Hereford breed. They are not to be used in comparing animals of other breeds.

- CED (Calving Ease Direct)** More positive EPDs are favorable and indicate easier calving for females calving at two years of age.
- BW (Birth Weight)** Expressed in pounds for progeny comparison between animals. The only EPD that the advantage is expressed in a lower number.
- WW (Weaning Weight)** Expressed in pounds when comparing an animal's progeny for adjusted 205 day weights.
- YW (Yearling Weight)** Expressed in pounds when comparing an animal's progeny for adjusted 365 day weights.
- MM (Maternal Milk)** The milking ability of a sire's daughters expressed in pounds of calf weaned.
- REA (Ribeye Area)** Reflects differences in size of an adjusted 365 day ribeye measurement.
- IMF (Marbling)** Reflects differences in percent of marbling based on adjusted 365 day IMF carcass measurement.
- BMI (Baldy Maternal Index)** A maternally focused index expressed in dollars returned from mating a Hereford bull to Black cows.
- CEZ (Calving Ease Index)** A general index that is specifically designed to be used in a heifer program.
- CHB (Certified Hereford Beef Index)** A terminal sire index that is built on a production system where Hereford bulls sire calves for the CHB market.

**VIDEOS & PICTURES OF SALE OFFERING
AVAILABLE on www.curtispolledherefords.com**

~ TERMS AND CONDITIONS ~

1. Bids may be submitted to any of the sales staff.
2. Each animal will be sold separately to the highest bidder.
3. The auctioneer will settle any dispute as to bids.
4. Terms of sale are cash.
5. Health Certificates furnished.
6. Known blemishes, if any, will be noted in catalog.
7. All two-year old bulls will have passed a fertility test. We recommend the yearling bulls be tested prior to turn out.
8. We will keep the bulls at no charge until April 1st or receive a \$50 discount if you take your bull home Sale Day.
9. We will assist in delivery.
10. The EPD's in the catalog are from the Spring 2012 analysis.
11. Any person attending the sale does so at his own risk, and we assume no liability, legal or otherwise, for any accident that may occur.

~ GUARANTEE ~

BULLS: Satisfaction guaranteed on all bulls for first breeding season. We will require that the bull be returned to us in a salvageable condition and we will replace him with a bull of similar value. We ask that you notify us prior to Sept. 1, 2012 if any adjustments are needed.

PLEASE NOTE: Extreme care has been taken in copying each and every pedigree to avoid errors. We are not to be held responsible for any error which might appear and which is beyond our control.

PLEASE BRING THIS CATALOG WITH YOU THE DAY OF SALE.

COMMERCIAL HEIFERS

We will be offering a select group of approximately 25 commercial yearling heifers. The heifers are Herefords and most were born in March of 2011. They have been Bangs Vaccinated and have had their fall shots with boosters in accordance with the Pfizer Select Vac program. They were also poured for external and internal parasites.

We plan to offer them in two groups with gate cut allowed if you would want less. These heifers will not be registered, although they are sired by our herd bulls and out of registered cow.
